Welcome to CUP ISIJ 2023

October Robot-session ISIJ

5 days in Innopolis - IT city & Innopolis University

Welcome from director of the Lyceum Innopolis

Dear participants of the ISI Junior Cup - 2023, students, coaches and teachers! Lyceum Innopolis welcomes everyone and wishes new achievements on the way to the Olympiad heights! The International School in Informatics for juniors was created following the results of the IOI-2016 in Russia, which hosted teams from 83 countries in the Republic of Tatarstan. In 2017, the Lyceum Innopolis hosted the All-Russian School Olympiad in Informatics, and in 2019 – the Cup ISIJ with the representation of teams from 15 regions of Russia, from China, Kazakhstan, Netherlands, Bulgaria. Since 2018, the Innopolis Lyceum has opened a special Museum of Olympiad in Informatics, exhibits from the All-Russian Olympiad and IOI for which were donated by the head of the Olympiad for 30 years of its holding from 1988 to 2018, Vladimir Mikhailovich Kiryukhin. The museum's materials reflect the history of the Olympiad from the first computers (Yamaha, Electronics) and the Basic programming language to complex platform of cloud solutions, such as the online platform of the Yandex Contest, and the C++ language, which is now adopted as the main for different international Olympiads in Informatics. Lyceum Innopolis is a specialized boarding school for talented students in the computer science, mathematics and physics, actively participates in the preparation of juniors for the Olympiads in Informatics and programming, has been constantly participating in the ISIJ since 2018, which allowed to give a start to the graduates of the finals of the All-Russian School Olympiad in Informatics. Our Lyceum became the venue for the Cup ISIJ in 2019 and is currently an Infopark ISIJ in Russia. We are open to sharing experience with other countries in the field of teaching methods for talented students and invite other InfoParks ISIJ in Russia (Mordovia, Sarov, Chuvashia and etc) and around the world (Tajikistan, Uzbekistan, China, Mongolia, Belarus and etc) to join forces to reach all motivated children with Olympiad in informatics in ISIJ for their progress to success.

Director of the Lyceum Innopolis

Nadezhda Alekseevna Sulimova

Welcome to CUP ISIJ 2023

October Robot-session ISIJ

5 дней в Иннополисе – ИТ город & Иннополис Университет

Приветствие директора лицея Иннополис

Уважаемые участники Кубка ISI Junior - 2023, школьники, тренеры и учителя!

Лицей Иннополис приветствует всех и желает новых достижений на пути к Олимпийским высотам!

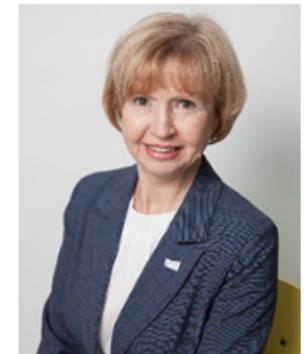

Международная школа информатики создавалась по итогам проведения в России IOI- 2016, которая принимала команды из 83 стран мира в Республике Татарстан. В 2017 году Лицей Иннополис принимал Всероссийскую олимпиаду школьников, а в 2019 году – Кубок ISIJ с представительством команд из 15 регионов России, из Китая, Казахстана, Нидерландов, Болгарии.

Лицей Иннополис с 2018 года открыл особый Музей олимпиадной информатики, экспонаты со всероссийской олимпиады и IOI для которого были переданы в дар руководителем олимпиады за 30 лет ее проведения с 1988 по 2018 годы Кирюхиным Владимиром Михайловичем. Материалы музея отражают историю олимпиады от первых компьютеров (Ямаха, Электроника) и языка программирования Basic до сложных платформенных решений, как онлайн платформа состязаний ЯндексКонтест, и языка C++, который сейчас принят за основу проведения IOI.

Лицей Иннополис является специализированным лицеем-интернатом для одаренных школьников в области информатики, математики и физики, активно участвует в подготовке юниоров к олимпиадам по информатике и программированию, постоянно участвует в ISIJ с 2018 года, что позволило дать старт дипломантам финала Всероссийской олимпиады по информатике. Наш лицей стал площадкой проведения Кубка ISIJ в 2019 году и в настоящее время является ИнфоПарком ISIJ. Мы открыты для обмена опытом с другими странами в области методик обучения одаренных школьников и приглашаем другие ИнфоПарки ISIJ в России и в странах мира объединить усилия для охвата всех мотивированных детей олимпиадной информатикой в ISIJ для их движения к успеху.

Директор Лицея Иннополис
