#3 ISIJ 2019/ Robot-club

Traditionally the members of the School is carried out the Robot club: two trainings and the tournament Robots. The main thing is that the guys are immersed in the process without prior training, showing how they can use their potential programmers in another technical environment. In 2019, the curator of the Work club was the Lyceum Innopolis and coaches from Innopolis University.

As a result, the tournament was held and the team of the Netherlands took the 1st place, the 2nd place – the team from Russia – Moscow Suvorov school, the 3rd place – the team of Kazakhstan.

On the left team of the Netherlands, in the center – Kazakhstan, on the right – Russia, Moscow Suvorov school

Phases of work included three days: lecture, training on the Assembly of the robot, the tournament robot Sumo wrestling on the tatami. The ground for the club was deployed in the Museum of the 30th anniversary of the Olympiad in Informatics in Russia, created in 2018 in the Lyceum Innopolis, Republic of Tatarstan.
